Happy Fall! Autumn, is often called fall because leaves fall from the trees. Enjoy the nature's beauty of colors this season. Our speaker for our Sabbath Service will be Mr. Cecil R. David (pg2). The following pages of this newsletter you'll find health information, a CDC update, fundraising information, invitation to our groundbreaking ceremony and other engaging materials for you.

We hope you enjoy this Newsletter, we will continue to add more and would like to include highlights in your life that you would like to share.

Speaker Bio. Cecil Richard David

Mr. David is a teacher with 50 years of experience from India, Lebanon, Thailand, Indonesia, and the USA.

He worked as a missionary in the Beirut Adventist Middle East College for 8 years. He then worked as a School Administer in Thailand for 8 years and for the last ten years he has worked as a Professor in Washington Adventist University, and worked as an Adjunct in Prince George's Community College for 5 years.

He loves music, literature, and Bible biography. He has been married for 49 years to Mary, who is a teacher as well. He has two adult daughters, Cecilia who resides in India and Robyn who resides in Queensland, Australia.

It's Pumpkin Season!

Amanda Harkless

Pumpkins are packed with nutrients! They are a good choice as the weather changes and can help strengthen your immune system. Pumpkins contain vitamins C and E as well as the antioxidant, beta carotene, which can reduce the risks of

various cancers. It is also high in potassium and fiber, which helps regulate blood pressure to lower your risk of heart attack and stroke. Because pumpkins are high in fiber but low in calories, they can help you feel full and prevent overeating.

My favorite recipe is to brown peeled, cubed pumpkin on medium heat. Then sprinkle cinnamon and sugar, cover and bake at 350°F for approximately 30 minutes until tender.

CDC Update

2023–2024 Updated COVID-19 Vaccines

“As of September 12, 2023, the 2023–2024 updated Pfizer-BioNTech and Moderna COVID-19 vaccines were recommended by CDC for use in the United States.

The 2023–2024 updated COVID-19 vaccines more closely targets the XBB lineage of the Omicron variant and could restore protection against severe COVID-19 that may have decreased over time. We anticipate the updated vaccines will be better at fighting currently circulating variants.”

Building Project

Support the building project with monetary contribution and prayers.

Proverbs 3:9-10

admonishes us to be generous with our finances, and in return, God promises to bless us. Honor the Lord with your wealth, with the first fruits of all your crops; then your barns will be filled to overflowing, and your vats will brim over with new wine.

Arts in India:

"Each region of India offered its own distinct style of art. Religious motifs are some of the most common subject matter, often featuring mythological human and animal forms as well as elaborate ornamentation. The three most prevalent art forms to span India's history are painting, architecture, and sculpture.

In ancient India, good art symbolized the wealth of several empires. The majority of the artworks promote religious activity. Homage and respect for the learned class was expressed via art."
